Mr. Weisberg--

In preparation for a number of articles I'm working on*, could you send me a list of all the assassination related books you have written, along with publisher if other than yourself, and year of release. I'd make a routine request for review copies, but I'm haunted by your remarks at the CTIA conference a couple weeks ago about sending them out. Still, if you can spare review copies, of course I'd appreciate that. Thank you...
